

Step-By-Step Guide on How to Remove and Protect Yourself against Spyware

Ad-Aware Installation Instructions

Please connect to the Internet If you can.

Close any programs you have open accept Ad-Aware, especially Internet Explorer

Double click on the "aawepersonal" file you just downloaded. Or run it from the CD you have all the files you need for the cleaning process.

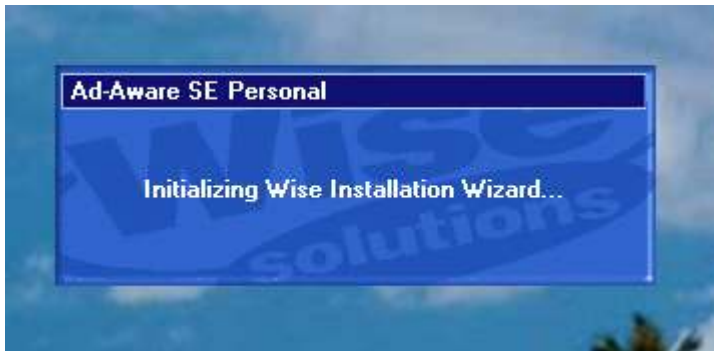

If you have Microsoft XP Service Pack 2 you will receive the following message:

Click "Run" to continue with the installation.

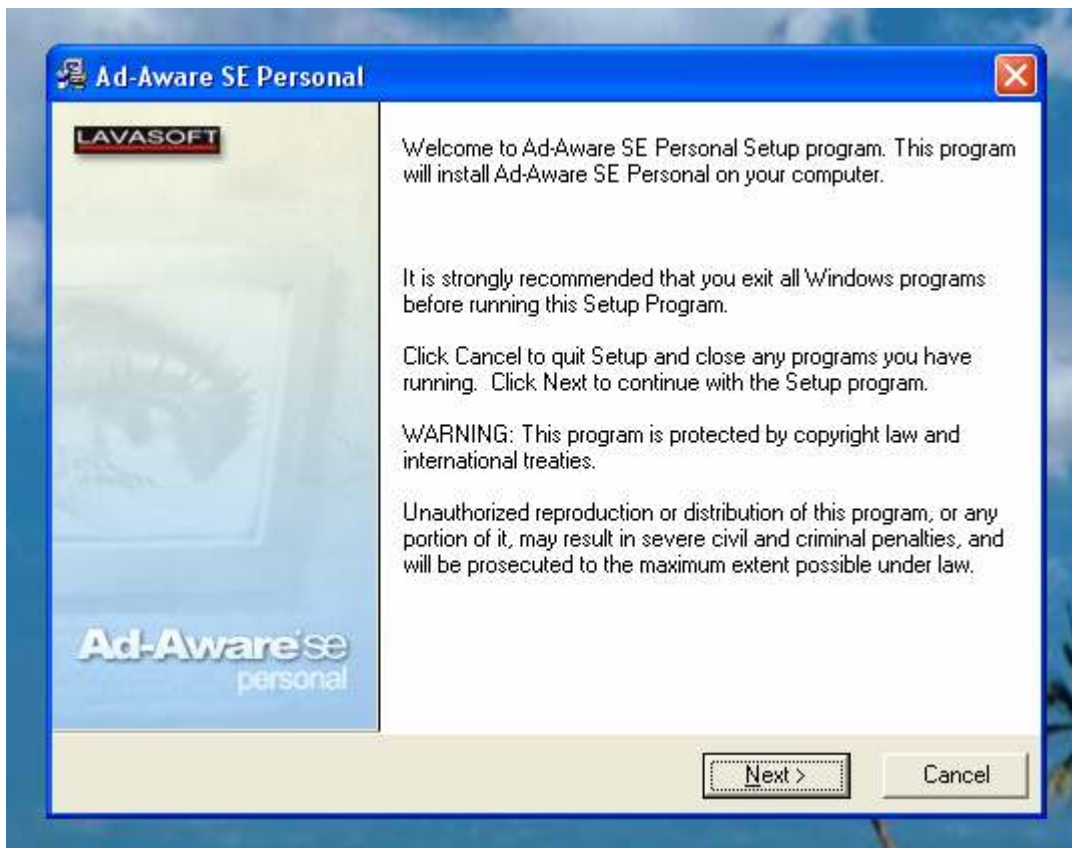

Installation begins

Again, please make sure you have closed all your programs

When you get to this screen, please make sure you have closed all your programs on your Task Bar.

Click Next> to continue with the installation.
